**cidade:** 3000 Melbourne, Australia

**Opção online:**

Ich bevorzuge Unterricht vor Ort, aber schließe Onlineunterricht nicht aus.

## matérias:

Physics, Mathematics

## qualificação:

Bsc(hons) Physics

## nível:

Physics for all secondary students

## detalhes:

Hello to all students and parents,
I'm Krit and have been teaching physics since 2000 to students in the age range 11 to 19. In the past years, most of the students I met were a bit afraid of physics, but some were really dedicated. I feel that I have been able to motivate so many boys and girls to confidently cultivate a liking for physics and achieve better standards at
school.
I can write much, but you people are the only one to make an opinion on my capabilities.
I have been tutoring on individual basis and even in teams using suitable daily life situations, computer softwares and simulations, teaching aides and I believe that each student can attain a nice standard in physics with the proper blend of commitment, patience, sacrifice and fun..My way of helping young people with physics is to make it lively and physics is fun guys if you get to think in innovative
ways.
Before anyone wants me as a guide, I'll be pleased to meet parents and have a talk so that everyone knows if I can meet up their expectations. Good luck physics
people..
