details:

I have taught children from ages 5 and up, as well as adults that were much older than I. All of my students have been highly satisfied. My greatest accomplishment has been teaching one of my students fluent french in only a matter of two months. I show my students that learning french is a lot of fun and as long as my students are willing to do the work I ask of them, they will be guaranteed to learn everything they need to know as quickly as possible. I have my French Diploma and Degree, currently doing my Masters. I also speak fluent German and
Persian.

I believe that patience is key. Taking small steps at a time ensures a higher and deeper level understanding as an end result. I try to understand where my students come from and where they would like to go in the future. It is important to me to identify and work on their weaknesses and strengths. Building upon their strength helps my students to see that they are capable in acheiving what they want, and this in turn will eliminate their weaknesses. I believe in all of my students, because I believe in
acheiving.

I have been a tutor for over 5 years now. I have tutored in groups in schools before and also privately in libraries or
homes.

Currently attending McMaster University. Will attend University of Lumiere Lyon 2 in September. Masters in

French.
Will be in Europe this summer in order to tutor (specifically in Switzerland - Zurich).

My teaching schedule will be mostly open starting at the end of April until around July. Mondays-Fridays, daytime is
preferable.

My payment policy is as follows: payment must be made before lessons may begin depending on the length of time you wish me to tutor. I charge 30
euros/hour.

I have lived in 3 different continents in my lifetime. I have met people all across the world and I consider this a privilege. I believe that I have been an effective teacher due to this. I am able to relate to a wide range of different types of people and am able to understand their learning skills in order to improve them. Seeing my students succeed gives me the greatest joy in the world, and I believe that is why I am an excellent teacher: simply because I love
teaching.

Please feel free to contact me have you any further questions, I will be glad to answer them. :)
