Details:

I can make the language learning experience easy and fun! I always make sure the student feels at ease, while improving his/her skills.

I focus on conversation, grammar, pronunciation and reading comprehension at the same time, because I want my students to get an active approach towards the language, while building solid basics knowledge and thus getting more confident. I'm dynamic and easy going.

I put a lot of effort and passion in what I do and how I do it. Before being a teacher, I've always been a language student, so I know what a student needs. I can make learning very easy and st for you whatever your goal is.

I often use the virtual classroom to make my lessons more fun and effective and build special video tutorials and other interactive exercises for the students such as podcasts, flashcards and so on so they can practice easily on their own at their own pace.
