I\'m a patient, young tutor who can relate to where you\'re at in your studies. I\'ve been through the NSW HSC four years ago, so am still familiar with the syllabus and what the Board of Studies is looking for in a good
response.

[Year 11 and HSC]
I can help you come to grasps with basic chemical concepts required for success in Chemistry from High School to University level as well as developing and perfecting the higher end skills required of you by the Board of
Studies.

I\'ll work with you on a one to one basis using a collection of practice questions I collected during my HSC and/or working through ones that you have. I can help with all aspects of the HSC Chemistry program

.

I\'m a final year University Chemistry student located in Casula/Liverpool who scored a Band Six in HSC Chemistry in 2005. I\'ve achieved Dean\'s Honours at the University of Western Sydney for the past two years and am due to begin Honours next
year.

I\'m passionate and skilled in the fundamentals of Chemistry and I\'ll help you form these same passions for success in the HSC and a solid platform for University studies in the sciences. I\'ll also help you conceptualise difficult to grasp chemical ideas and help you think scientifically about chemical problems to work systematically through
them.

I tutor in the South West Sydney area, in Casula, Liverpool, Glenfield and surrounds. I attend university in Parramatta, so can arrange to see you if you\'re in that
area.
