## Details:

I have 22 years of experience as a tutor. I teach Spanish one on one and in groups, including Mommy and Me classes. My youngest student right now is 8 months old, and my oldest is 78 years old: They are both doing very well! I use text books and online tools, but am also constantly preparing my own new materials for the free use of my students. I use multimedia materials on the internet, as well as the traditional flash card, dictionary and notebook. I believe that language acquisition is natural and that everyone can learn a second language and can learn to appreciate literature and art from cultures foreign to them. I always look for the best way into your brain and won't quit until I find
it.

At the moment I am teaching adults and young people in three countries and in five different states in the USA. I love web cam classes because of all the multimedia we can use, and the convenience for both teacher and
student.
