Details:

Do you still think that Russia is all about polar bears, communism and matrioshkas? If so, I might upset you but this country has much more to offer! And why don’t you just begin learning about it and its culture with the help of a powerful means? Of course I am speaking about the Russian language. Learning a foreign language can always be beneficial from both future and career perspective. In fact, it is like an added qualification in your CV. There can be many reasons to learn a foreign language and whatever your reason is I can assure you that your goals will be achieved. I am a native-speaker and have a degree in Education. It means I not only know the language itself but also the most effective ways to teach it. Focusing on Reading, Speaking, Listening Comprehension and Writing will help you to cover the main aspects of the language. I have been teaching a wide range of students of all age groups for 5 years already. Even if you have never tried learning Russian don’t hesitate to start now! The materials will be provided for free. All you need is a determination to study. Classes can be arranged at my place (South London/South East London) or at your place/office. If you have any further inquiries feel free to
ask.
