Detalles:

I have matured a ten-year experience in teaching, having spent those years giving 1:1 or 1:2 tuitions to secondary and high school
students

Teaching Approach: My golden rule is to speak Italian at all times, as there is no better way to learn a language. All the rest depends from the tutees I have in front of me: some of them need to be amused, others to be accompanied step by step, others just strive for a particular goal. I strongly believe in regular practise too, therefore I always recommend written as well as oral exercises.
