Fächer:

Art

Qualifikation:

- M.Sc (Applied Geophysics)rnrn- Ph.D based research , 2 years :- \"Satellite Application, Earth Quake Prediction\".rnrn- M.Sc cum Research goes on(Astronautics,Space Geodesy
)

Niveau:

From Standrd / Class 8th up to 12th(Most Preffered) , Undergraduate Level

Details:

I used to go to the level of understanding of the concern student, try to explore the real potential and weakness of the student,wish to know students intrest (why / how / importance of learning / and upto what level student wish to learn the subject), and oberving the students'pshychology , perceiving tendency..overally...I start
teaching

I do believe teaching itself is an art , but it is useless, if it not properly and perfectly received by the student , which enhance the conceptual understanding of the student and spark the mind of the student to think and work
further.

What ever we learn ...it is not to get an academic achievement, rather it is for the whole life. I follow this concept
seriously

I wish to inspire and bring the student(irrespective his / her potential) up to that level , from where

the the student can move ahead with his / her own leg forever
forwadly

I wish to develop the self confidence of the student on the concern subject

Even though there were failureness repetedly,I used to keep on repeted attempt with patience,tolerance and faith, without irretation or giving up and as a consequeces the students achieve excellence at the
end

I give 2 times lesson / techings freely as a demonstration.Everyone are welcomed to attend without any
conformation.
